

## **Houston Vessel Manufacturing**

Specializing in custom fabrication of pressure vessels and high specification piping systems.

## **HOUSTON VESSEL MANUFACTURING (HVM)**

is located in Houston, Texas on a 22 acre site conveniently located twenty minutes from Bush Intercontinental Airport. The Facility is fully equipped with Certified Welders, Overhead Cranes, Sub Merged Arc Welding Equipment, Orbital Welding Equipment, which saves time and materials cutting pipe fabrication time in half. Our support personnel have over 100 years combined experience in the Oil & Gas Packaged Systems industries. Ideal for large and small projects alike, the fabrication area provides lifting capacity up to 45 tons and hook heights up to 20 ft. Offices encompass approximately 12,000 sq. ft. With a well staffed engineering and design department we are able to provide you with a quality product set to the highest standards.

- > USA Standards
- > European Standards
- > Canadian Registration
- > ASME Sec. VIII Div. 1
- > Pressure Equipment Directive Certified (PED)

### **Material Capabilities**

- > Carbon Steel
- > Stainless Steel
- > Alloys
- > Aluminum
- > Monel
- > Inconel

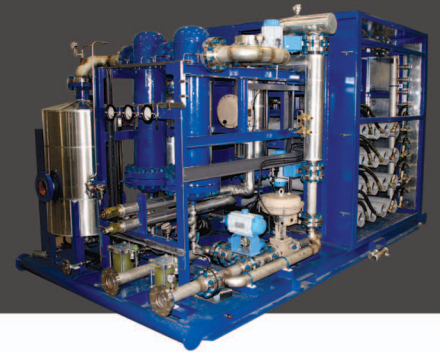

### **MFG Capabilities**

- > Glycol Regen
- > Separation
- > Filtration
- > Fuel Gas Skids
- > Seal Gas Skids
- > Metering Skids
- > Refrigeration
- > Hydrogen Recovery
- > Flow Control Units
- > Amine Units
- > Manifold Systems

## Design Fabrications to Following Codes

- > ASME Sec. VIII Div. 1
- > AWS D1.1
- > AWS D1.2
- > ASME/ANSI B31.3
- > NBIC "R" Stamp

AT HVM OUR MAIN CONCERN IS CUSTOMER SATISFACTION AND WE ARE HERE TO HELP CUSTOMERS IN

# KEEPING THE PRESSURE ON!

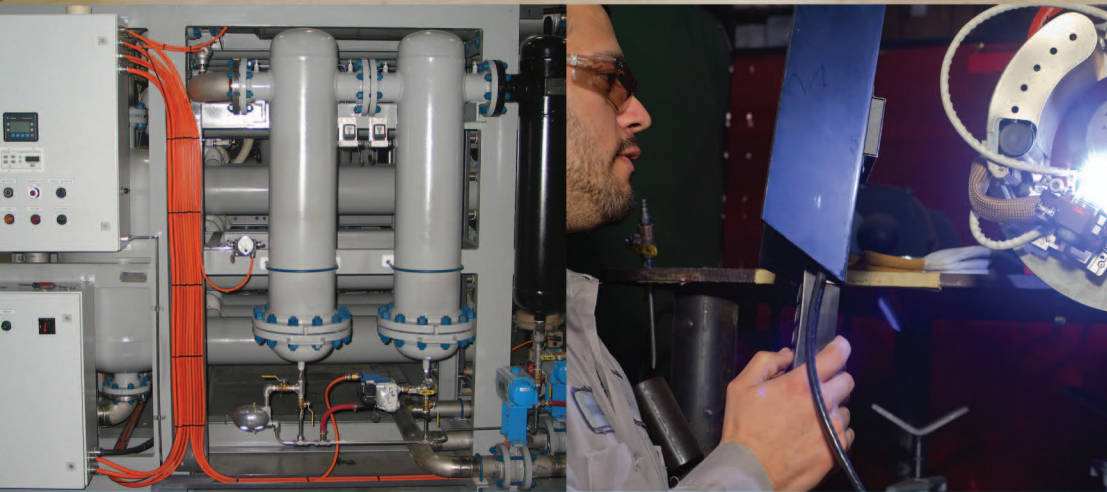

**We specialize in repair and custom fabrication of pressure vessels and high specification process piping systems and packaged equipment skids.**

- > Height under the hook = 20 ft.
- > Diameters of vessels to 120"
- > Thicknesses up to 2"
- > Shop capacity 90,000 sqft.
- > 2.5 Acres storage capacity
- > (4) 20 ton cranes
